With a distinguished history of over 200 years, Grosvenor Wilton is one of the UK’s oldest independent carpet manufacturers. Founded in Kidderminster, the business is steeped in a rich tradition of innovation, craftsmanship and design.

Renowned for producing the finest Wilton carpet for clients throughout the world, we have considerable experience in creating authentic, bespoke designs for stately homes, historic palaces, commercial venues and private residences.

Attention to detail is at the heart of our company ethos, from creative concept through to manufacture and installation. Each stage of the process is meticulously considered in order to deliver market leading products and service.

Introducing a historic family tale of tradition, innovation, craftsmanship and classic British design

A history of carpet excellence...
Each hand finished carpet is made from the very best materials. We only use superior wools and blends to produce the finest carpets, stair runners and rugs. Our highly skilled team of artisan weavers benefit from expert knowledge passed down through generations, ensuring that quality is assured at each and every stage of the manufacturing process.

Using traditional Wilton looms, Grosvenor Wilton luxury floor coverings can be created to precise, bespoke specification. Our worsted Wilton and woollen spun qualities are offered in both cut (Velvet) or loop (Brussels) pile constructions. The pile yarn is 80% wool and 20% nylon or 100% wool. The 10 pitch looms provide enhanced design definition with excellent colour reproduction.

Beautiful and durable traditionally woven narrow Wilton Velvet and Brussels Wilton loop pile carpet can be woven to precise specifications in a variety of widths from 0.69m to 1.37m to create stair runners, rugs or wall to wall installations.
With their design expertise and superior creativity, our knowledgeable team are accomplished in realising concepts and briefs for a wide range of clients; from restoration projects, working alongside curators and historians through to commercial and residential designs for architects and designers. Our wealth of expertise, innovation and experience ensures each commission is crafted to a precise specification that guarantees not only luxurious comfort but also durability and longevity.

Our legacy of authentic, classical English design, Grosvenor Wilton’s exceptional styling capabilities in historic patterning, dating from the 1700s through to the fashionable trends of today. This enables us to faithfully reproduce carpets from any era and also offer unique inspiration in combining original design and innovative weaving techniques for exclusive and bespoke carpet designs.

Historical design pedigree and a tradition of innovation...
Whether you are looking for an authentic reproduction of a heritage carpet or you wish to create something new and unique utilising the finest traditional manufacturing techniques, we have the production and design expertise to deliver your project to the very highest standards. Our carpets have been manufactured for royal palaces, prestigious government buildings and the finest homes around the world since 1790.

The way we approach a project is highly personalised. With a skilled team of project managers and designers, supported by state-of-the-art CAD technology, we aim to work in partnership with clients both in the design studio and at project locations to provide an unrivalled service.

Our knowledgeable team are accomplished in realising concepts and briefs for a wide range of clients.
